

<b>Project title:</b>	<b>Studies and Technical assistance in all sectors</b>
<b>Position:</b>	<b>Infrastructure Specialist</b>
<b>Location:</b>	Jamaica
<b>Eligible nationalities:</b>	All nationalities
<b>Start of project:</b>	10/09/2014
<b>Assignment duration:</b>	17 working days
<b>Deadline:</b>	10/07/2014
<b>Objective of the project:</b>	<p><b><u>Overall objective:</u></b> The objective of the final evaluation of the PRP II is to facilitate a process which will document project outputs, impact and sustainability prospects. Eventually, the process should also mobilize the various stakeholders to take action based on this documentation; particularly given the continuity inherent in the PRP overall (phase HI on-going phase W agreed). The Final Evaluation will therefore also review the on-going PRP HI and other donor programmes with similar objectives Within the context of the Community Renewal Programme and identify areas of weaknesses and strengths that could be taken on board the PRP III to ensure the achievement of the overall Poverty Reduction Programme envisaged results.</p> <p><b><u>Specific objective(s):</u></b> Performance assessment: To assess the project's performance and achievements vis-à-vis the projects overall objective and to conduct impact assessments on the various categories of beneficiaries. Lessons learned: To generate lessons learned from the implementation of the projects activities and the outcomes achieved that will be useful for follow-on PRP phases and similar projects in the future for the same sector. Recommendations: To develop specific recommendations for major stakeholder groups anchored on the conclusions from meetings in which the different stakeholder groups shared their own recommendations and insights and from other findings of the review process.</p>
<b>Qualifications required:</b>	<p><b><u>Qualifications and skills:</u></b></p> <ul style="list-style-type: none"> <li>• Post-graduate degree in Civil Engineering. The expert should preferably be a recognised chartered member of his/her respective professional body/order or possess an equivalent professional certification issued by his/her respective professional body/order in his usual place of residence or practice,</li> </ul> <p><b><u>General professional experience:</u></b></p> <ul style="list-style-type: none"> <li>• A Minimum of 5 years relevant professional experience in the design of civil and or structural works or buildings.</li> <li>• Fluency in English</li> </ul> <p><b><u>Specific professional experience:</u></b></p> <ul style="list-style-type: none"> <li>• Preferably 7 but a minimum of 3 years relevant professional pos-graduate experience in Civil/Construction Engineering required</li> <li>• A Minimum of 5 years relevant professional experience in the supervision of construction and or renovation works of buildings and or roads or water or sanitation systems.</li> <li>• Experience in community infrastructure development programmes will be an advantage.</li> </ul>
