

## Student Assistant for environment and climate analysis

As of 1<sup>st</sup> of November 2018, NTU has opened for applications to master's degree students for an internship position in our office in Aalborg. We imagine that you are studying Environmental Science, Urban Energy and Environmental Planning, Geography or a similar program that has a climate focus.

We are looking for students who are very strong in their field and have an interest in the environment, climate change, circular economy and possibly experience in doing Environmental Impact Assessments or other impact analyses. You need to have a good overall understanding of concepts and methods related to the field, and a wish to gain practical experience in applying these to real life problems. This entails a creative mindset to ensure adaptation of the methods to fit the particular needs of the project.

The internship will require cooperation with a number of people globally, as well as fluency in English both written and spoken. In addition, it is of utmost importance that you are an open-minded, proactive and positive person, who likes to interact with other people, and who is not afraid of challenges. We hope that you are a professional team-player and eager to work and develop yourself in an international environment.

### **The person we are looking for will be participating in the following working areas:**

- Assisting project managers in conducting Environmental Impact Assessments and other tasks related to this field
- Assisting our technical department in writing components for future projects and bids
- Data gathering, sorting and processing in Excel, R or a similar statistical language
- Assistance in expert searches and project budgeting
- Ad hoc tasks

The internship also gives a possibility to write master thesis in cooperation with NTU.

If you have any questions about the internship, please feel free to contact Vaida Cerneckyte-Larsen on +4599300000.

Send your application to Vaida Cerneckyte-Larsen, e-mail [vac@ntu.eu](mailto:vac@ntu.eu) as soon as possible and **remember to attach your CV, Application letter and grade transcripts.**
