

<b>Project title:</b>	EU Global Technical Assistance Facility (TAF) for sustainable energy
<b>Position:</b>	<b><i>Team Leader and sustainable energy expert</i></b>
<b>Location:</b>	Brussels
<b>Eligible nationalities:</b>	All nationalities
<b>Start of project:</b>	January 2020
<b>Assignment duration:</b>	Full time within 48 months
<b>Deadline for the applications:</b>	<b>03/06/2019</b>
<b>Objective of the project:</b>	<p>The overall objective of this project is to contribute to establishing the necessary conditions for achieving the SDG 7 goals in sustainable energy and possible interlinkages with other SDGs. It will as well contribute to the SDG 13 goals related to climate action in Development Cooperation Instrument (DCI) eligible countries with a focus on Sub-Saharan Africa.</p> <p>The purpose of the project is to deliver high level technical assistance and policy advice at country, regional and global level through expert missions that will be mobilised at short notice to support committed countries and partners to reach the SDG7 objectives. It will support developing countries to improve their policy and regulatory framework conditions aiming at providing attractive and enabling conditions for increased public and private investment in energy access, renewable energy as well as energy efficiency taking into account climate change, gender and health impacts especially under the framework of the EIP.</p> <p>The contract will continue the work of the former Technical Assistance Facility (TAF) contracts and should become a quality reference for EU energy actions. Its experts will assume diverse roles ranging from technical advice to project structuring, negotiation facilitation with technical stakeholders as well as communication activities even at global level. The structure of the project aims to link DG DEVCO HQ's thematic expertise with country actions, sector information and project realities on the ground. The project structure should be flexible to respond to priorities and adapt its programme so as to make best use of the available funds.</p>
