

Project title:	Enhanced Capacity and Compliance with International Aviation Standards in Zambia (EuropeAid/138636/IH/SER/ZM)
Position:	Key expert 1: Team Leader / Principal Advisor
Location:	Zambia
Eligible nationalities:	All
Start of project:	January 2021
Assignment duration:	Up to 36 months
Deadline:	27th August 2020
Objective and purpose of the project:	<p>The overall objective of this project is to develop a reliable and effective aviation sector capable of contributing to economic growth in Zambia. The aim is to improve compliance with international aviation standards, especially in terms of both air safety and security oversight.</p> <p>The proposed service contract will provide technical assistance support to the Government of the Republic of Zambia (GRZ) and the identified key stakeholders in the Civil Aviation sector in order to improve compliance with international aviation standards, especially in terms of both air safety and security oversight. It will focus on supporting the Ministry of Transport and Communications (MoTC) and other sector institutions (including the Zambia Airports Corporation Limited, Zambia Air Services Training Institute, Zambia Meteorological Department, Copperbelt University and others).</p> <p>The activities under this contract will include: policy, legal and institutional advice and review, development of secondary legislation (including for more effective economic regulation of the sector), facilitation of sector strategy approval; provision of training and capacity building to improve planning and oversight of air safety and security; procurement of specialist training and meteorological equipment; and support in developing a Programme Estimate.</p>
Qualifications required:	<p><i>The expert will be in-charge of managing and coordinating the overall consultancy, responding to demands from the key stakeholders and the direction of the project steering committee. S/he will also be responsible for planning and coordinating short-term non-key expert (NKE) inputs, provided under this service contract.</i></p> <p><u>Qualifications and skills:</u></p> <ul style="list-style-type: none"> – <i>At least a taught Master's Degree – or equivalent – in the field of aeronautics, aviation or a directly related field, or, in its absence, a Bachelor's Degree in the field of aeronautics, aviation or a directly related field, and</i> – <i>Five (5) years of relevant general professional experience in addition to those set out below – minimum requirement.</i> <p><u>General professional experience:</u></p> <ul style="list-style-type: none"> – <i>At least 10 years of relevant professional experience in aeronautics and/or aviation issues. For example; i) experience in drafting and/or implementing aviation policy and regulations and/or; ii) airport and air navigation services (ANS) and/or; iii) airport planning and development and/or; iv) aviation security and/or; v) other activities directly relevant to this contract – minimum requirement.</i> <p><u>Specific professional experience :</u></p>

	<ul style="list-style-type: none"> - At least 7 years of relevant professional experience in the management of aviation bodies. For example; i) experience at management level in a government ministry with responsibility for aviation issues and/or; ii) experience in a supranational aviation agency (e.g. ICAO, EASA, etc.) responsible for transport and/or aviation safety related topics and/or; iii) management experience of a major airport or ANS provider and/or; v) providing technical assistance in management to such bodies - minimum requirement. - Proven knowledge of ICAO standards and recommended practices - minimum requirement. - Fluency in both oral and written English to a C1 level of proficiency6- minimum requirement. - Previous experience as a team leader in at least two (2) technical assistance / capacity building programmes of more than a year in duration for which there were more than 3 experts - preferred requirement. - At least 3 years of experience in Southern Africa Development Community countries (SADC) - preferred. - Previous knowledge of EU (EDF rules) procedures - preferred.
