

<b>Project title:</b>	<b>EU Leading the Global Energy Transition; REF: FPI/2020/EA-RP/0001</b>
<b>Position:</b>	<b>Sustainable energy and energy efficiency expert (KE2)</b>
<b>Location:</b>	South-East Asia, Central and South Asia, Latin America
<b>Eligible nationalities:</b>	All nationalities
<b>Start of project:</b>	<b>1<sup>st</sup> of October 2021</b>
<b>Assignment duration:</b>	36 months
<b>Deadline:</b>	<b>10<sup>th</sup> of May</b>
<b>Objective and purpose of the project:</b>	<b>The overall objective</b> of the project is to support the European Union in leading the global energy transition as a building block of achieving the external dimension of the overarching political priority of the European Green Deal. The project tends to expand and deepen the EU's energy diplomacy beyond the core group of countries with which it is interacting actively through multilateral structures or bilateral agreements. The action will allow the EU and its MS to make available their expertise on the energy transition and to complement existing energy and political dialogues and cooperation instruments in a wide variety of countries. <b>The purpose</b> of this contract is as follows: To promote the European Union and its Member States' approach, technical knowledge, rules and experience in energy transition in specific partner countries and to promote business opportunities for EU's industries in sustainable energy technologies
<b>Qualifications required:</b>	<p><b><u>Qualifications and skills:</u></b></p> <ul style="list-style-type: none"> <li>• University degree in one of the following fields: social sciences, economics, communication, geography, urban planning/development, architecture, engineering or another directly related discipline to this assignment</li> <li>• At least C1 level in written and oral communication in English;</li> <li>• A good command in French, Spanish or another relevant language to the assignment is an asset</li> </ul> <p><b><u>General professional experience:</u></b></p> <ul style="list-style-type: none"> <li>• Minimum 12 years full time, proven post graduate experience working as an expert in the fields of sustainable energy and energy efficiency.</li> </ul> <p><b><u>Specific professional experience:</u></b></p> <ul style="list-style-type: none"> <li>• Minimum 5 years professional experience in technical assistance and/or capacity building/training positions in the field of European energy policies such as energy transition and decarbonization of the energy sector, renewable energy technologies, balancing of power systems, energy efficiency standards.</li> <li>• Minimum 2 years professional experience working on energy transition issues related to any of the following regions: EU neighborhood region, Central, South and South-East Asia and Latin America</li> </ul>
