ASSIGNMENT DURATION

2 years

DEADLINE

20/Aug/2021

START DATE

Est. Oct/2021

OBJECTIVE AND

PURPOSE OF THE PROJECT

The overall objective of this Assignment is to assist the EIB Project Advisory Support Team (EIB PAS Team) in their support to the Managing Authority of LIOP (MA-LIOP) and other EU funds managing structures or beneficiaries in the performance of their tasks. This will include assistance, based on specific ad-hoc requests, in the following type of activities, without being limited to these:

- Evaluation of environment and energy projects (when not covered by JASPERS),
- Support for project implementation.
- Support to the MIEP in answering to requests from any other external institution (EC, Audit Authority...)
- Capacity building of waste, water and Energy projects beneficiaries for monitoring projects and analyse financial performance.
- Capacity building of MA LIOP officers, especially those responsible for evaluation and implementation.

Qualifications and skills:

- At least Master's Degree (or equivalent professional qualification) in a relevant field for the assignment (e.g. environment, engineering, etc.); (minimum requirement)
- Experience in preparation of reports/analysis/comments in Romanian and/or English would be considered an advantage

General professional experience:

- At least 10 years general experience with emphasis on management of projects and EU funded Energy projects (minimum requirement);

Specific professional experience:

As a **minimum requirement**, the expert shall demonstrate meeting two of the four below criteria and preferably all four:

QUALIFICATIONS AND SKILLS

- *Experience in performance of feasibility studies/Technical Design for Energy Projects related to **High Efficiency Cogeneration Units** as a technical expert*
- *Experience in performance of feasibility studies/Technical Design for Energy Projects related to **District Heating** as a technical expert*
- *Experience in verification/evaluation of EU funded projects in the Energy sector (including **High Efficiency Cogeneration Units / District Heating**)*
- *Experience in preparation/implementation of Energy projects in Romania*

Language Skills and others:

- *Working knowledge of English (read, spoken and written) – (CEFR B1) - (Minimum requirement)*
- *Working knowledge of Romanian (read, spoken and written) would be an asset*
